LIGHT BRIGADE

A pure white kitchen is the pièce de résistance of a sun-drenched home.

ARCHITECT ROBERT MILLS OF ROBERT MILLS ARCHITECTS "This kitchen is striking in material, colour and size – it commands the space yet doesn't dominate. The transparency created by the floor-to-ceiling glass is unique. There are many trade secrets in this kitchen, which is flanked by two staircases that lead to bedroom wings. The best kitchens are the centre of the home, and in this case it's true in the physical sense as well as the emotional sense." **What luxury item did you choose for this kitchen regardless of budget?** "The sheer size. The island bench is 5.3 metres long and the bench in front of the window is nearly 8 metres long."

BLONDE BOMBSHELL

Rich limestone and golden timber form a perfect pair.

ARCHITECT ROBERT MILLS OF ROBERT MILLS ARCHITECTS

"For a house to become a home with meaning, the character and personality of its owner should inspire the design process. If we're successful in designing an interior that reflects our client, they'll be at one with their home from the beginning. By adding a touch of surprise to the design, the unexpected will hopefully make the experience of living in these spaces a joy and the design a success." **What luxury item did you choose for this bathroom regardless of budget?** "The earthy quality of the limestone creates an understated elegance which balances with the blonde timber."
